=====  
**Press release Andrew Bentley, Team UK USA. 24th Feb 2006**

Andrew Bentley last week took part in an assessment to a transaction to racing in the USA in 2006 with the TeamUKUSA.com project.

Testing with top single seater outfit JDC, Andrew sampled a Star Mazda car at the Kershaw track in South Carolina.

Andrew' The car was great, plenty of grip, power and aero, we struggled in the morning with a intermittent rain so it

was difficult to learn the track but mid afternoon it was dry and we managed 60 dry laps and we set a good time. We had

no time to go for as the team had no Mazda data to go on, but compared to the other teams testing we where well on the

pace. I'm looking forward to the 1st race at Sebring with ALMS the huge crowds and publicity are important for my career this season'

'Top 3 is my goal to build points for the Championship, we haven't got a full budget but we are all working together in this, but with the Canadian F1 GP and Champ Car support it gives us a good starting point'

John Church the team principle was impresses with Andrew, commenting on how Andrew adabted to the car in the mornings wet cold conitions and then ran a good 70 laps in the dry in the afternoon.
