Ryan Justice Achieves Victory

May 13th, HOUSTON Texas, USA - Ryan Justice achieves his first professional victory in round 2 of the 2006 Star Mazda Championship Series presented by Goodyear. He did so by a flag to flag drive on the 1.65 mile temporary street circuit around the streets of Reliant Park. The native Oregonian not only led every lap but set the quickest qualifying time of 1:09.340 placing his Northwest Autosport / J&M Body Shops Pro Formula Mazda in the number one starting position. This victory moves Ryan into 4th place overall for the championship after a very disappointing mechanical problem robbed him of a podium finish in Sebring Florida back in March.

Northwest Autosport team driver Phil Fogg Jr., of Wilsonville Oregon, found himself with a top 10 qualifying position putting his Consonus Health Services Pro Formula Mazda in the ninth qualifying spot with a quick time of 1:10.244. Saturday's 22 lap event ended with Fogg Jr. matching his best professional finish ever in the twelfth spot.

Northwest Autosport's successful week started with two of its members making a visit to the Texas Children's Hospital signing autographs and delivering smiles to the young patients. The visit was organized by Racing For Kids®, an organization designed to use the increasing popularity of motorsports to bring the public's attention and funding to the health care needs of children. This is an organization that the team and Ryan have worked with several times before. With his victory in Houston, Ryan receives \$500 from Racing For Kids® and a \$500 grant to the local children's hospital in his name.

Ryan and members of the team will be visiting the Akron Children's Hospital in Akron Ohio, Wednesday May 17th, just before they start their week at the Mid-Ohio Sports Car Course where round 3 of the Star Mazda Championship will take place in conjunction with the American Le Mans Series. Look for Ryan and his team as they focus their efforts towards the 2006 Championship title.

Ryan Justice known on the team and people around him as RJ, started his driving career at the age of 14. Now 20, he has worked his way through several forms of open wheel racing. After campaigning on the SKUSA ProMoto Tour racing shifter karts, Ryan jumped into the famed open wheeled series of the Star Mazda's. His first year he finished 11 in points. The next year was a change as the series announced their new "Pro Car". Ryan immediately progressed and developed his abilities along with a new car. In 2005 Ryan immersed as a contender for the championship. After his front row qualifying and race leading performance back in April, Ryan has consistently moved towards the top of the championship contention. Along with the busy schedule of a professional racecar driver, Ryan also attends Loyola Marymount University in Los Angeles California. Ryan's desire to attend Loyola Marymount University and start a professional career simultaneously shows the dedication and talent of this young driver.
