May 1st,
Placentia, CA

Goshen Motorsports and Otto Environmental Systems North America, Inc. (Otto), announced today that Goshen's No. 82 race car, piloted by 2007 Formula TR Pro Champion 17 year old Billy Goshen, will display the Otto logo for the 2008 Star Mazda Championship presented by Goodyear. Team owner Bill Goshen Jr., "We are very pleased to make this announcement! Being provided the opportunity to associate our race team with such a prestigious world wide organization like Otto Environmental is a privilege." Adds Goshen Motorsports Vice President of Marketing Kerry Holmes, "It has been a pleasure working with Otto's management staff in order to develop an exciting racing program that we are all looking forward to launching in Utah at Miller Motorsports Park. May 15th, 16th, and 17th.

"To climb into that orange and black race car for each race has always been a privilege," Billy Goshen said. I'm a race car driver. All I want to do is drive as hard as I can for my fans, our partners, everyone at Otto Environmental Systems, and give my best effort each race."

Otto CEO, Steve Stradtman, added, "The Goshen Motorsports team is a first class racing organization and has proven this over the years. Their marketing strategies fit our target audience, which will continually help the Otto brand and create an exciting environment for our entire organization. Our partnership with Goshen is another way to reach Otto's goal to be an innovative, service-oriented leader for our customers in the industries we serve. We are looking forward to a long term relationship with Goshen Motorsports."

Otto Environmental Systems North America, Inc., is a manufacturer and service provider of plastic containers for the waste, material handling and industrial markets. It is the U.S. division of Otto Group BV. A privately held European based company specializing in waste collection products and services, Otto Group was founded in 1934 and has ten manufacturing locations across the globe. The Otto Group operates in Europe, the U.S., Central America, South America, South Africa, and Asia.
