

TEAM GDT TO PARTICIPATE IN THE FORMULA MAZDA WINTER SERIES

FOR IMMEDIATE RELEASE

DALLAS, Texas (October 29, 2009):

Team GDT will be taking full advantage of this winter's offseason. While other teams are going on hiatus, Team GDT will be offering multiple test days as well as running their Pro Mazda cars in the Formula Mazda Winter Series. The first race of the series is November 7th at Infineon Raceway in beautiful Sonoma, California. Team GDT has an ace up their sleeve when it comes to this track as Driver Coach Chuck West has held multiple lap records at the old Sear's Point.

Ashley Freiberg will be returning to Team GDT and will be joined by Corey Lewis. Both drivers have competed and had podium finishes in this year's Skip Barber National Series. This will give both pilots an opportunity to reacquaint themselves with the Pro Mazda machine and learn to work with the technical staff well before the start of the next season.

For more information on the drivers, please visit their websites:
