Autobahn does allow multiple teams to share days to lower the individual team cost. We do not increase the rental cost if additional teams share the date.

Our insurance requirement is \$5,000,000. You may provide your own insurance as long as it meets the requirements in the contract, or you can purchase from the track for a cost of \$886 per event.

While several dates are available for evenings or shared days, we have limited dates available for exclusive full circuit rental days. The following are the full circuit dates that may be the most convenient for teams competing in the Star Mazda Championship presented by Goodyear.

March 29      April 19      April 26      June 28      July 19
